Daily workshops

The youth organization Svitac continued with daily interactive and online activities. The younger participants did creative and age-appropriate educational things, with the help of local and international volunteers. This month they talked about the evolution of humanity, changes in nature when the seasons change, the ability to remember and forget, the life cycle of frogs and butterflies, reptiles and photosynthesis. The youngest participants enjoyed the creative part and modeling of fun objects (e.g. various colorful ornaments, small frogs and butterflies made of paper and cardboard rolls). The group continued with music workshops, rehearsing rhythms and songs. Participants continued to learn Latin by practicing writing the letters O, P, R, S, S, T, U, and V. They did warm-up exercises and yoga for the kids, and every Thursday they danced, played sports, and practiced attention and concentration by reading and listening to stories (The Hen Who Carried Golden Eggs, Monkey and Cat, Beauty and the Beast). In the workshops of English, German and Turkish, they learned words related to drink, feelings, suggestions for a place, adjectives and opposites. The aim of these educational activities is for children to develop their imagination and to express their creativity using various materials, and to develop motor skills, memory, a sense of tolerance and respect for others and adopt good behavior. All workshops are implemented with an educational visual method with pictures and video.

Age 13+ participated in discussions/workshops on the topics of discrimination, prejudice, racism and conspiracy theories. In this way, we want to provide young people with a safe and neutral space, in which they can speak their minds.

In English and German workshops they worked on practicing grammar and everyday communication, reading and translating short texts and phrases, school homework and interesting projects.

Guitar workshops

Within the new songs, etudes and compositions that the participants worked on are: two etudes in C major (F. Sor, F. Carruli), "Dao Xiang" - (Jay Chou), three waltzes: "Tatiana, Andreina and Natalie" (Antonio Lauro), "Horse with no name" (America), "Smells like teen spirit" (Nirvana) and "Alive" (Pearl Jam).

Samba workshops

Work continued on writing lyrics and composing melodic parts for two trombones on already existing harmonic arrangements. This practice is likely to continue in the coming period.

Music workshops (younger group)

The group continued to work on developing motor skills and practicing coordination of the left and right hands. Two authorial compositions were also rehearsed. Part of the time at the workshops participants spent listening to gustav holst's entourage: "The Planets".

Youth group exchange

Svitac welcomed a group of short-term ESC volunteers from Finland, who spent 14 days in the Brčko District. The main mission of the project was to contribute to the local community. Volunteers gave the necessary support to organizations in Brcko working with children and young people to promote solidarity and tolerance. The main activities included workshops on the occasion of Anti-Racism Day. They spent their first days exchanging cultures and learning about non-formal education. Every day they participated in a series of activities in the Youth Organization Svitac, the Center for Roma Youth and Fantasies (NGOs for disadvantaged children).

Together with our longtime volunteers and local participants, they experienced the exchange of different cultures, languages and experiences! International volunteers have had a positive impact on peacebuilding efforts during their daily activities.

International Day for the Elimination of Racial Discrimination

March 21 is the International Day for the Elimination of Racial Discrimination.

Youth organization Svítac held a workshop with high school students. Simon, an international volunteer from Germany, prepared a presentation and discussion. The group first discussed the 1936 Summer Olympics in Germany and how the National Socialists used sports and games for their propaganda. He also highlighted the friendship between Jesse Owens and Luz Long, which

should be a role model for sportsmanship. (Members of the Nazi Party with Luz long are talked sharply after spending time with Jesse). Jesse and Luz became friends at the Olympics and corresponded for years afterwards. Jesse would say of his Olympic friendship with Luz: "It took a lot of courage for him to befriend me in front of Hitler".

In the continuation of the activity, we discussed how right-wing extremists abuse fans and sports clubs, especially football clubs. The students are also familiar with a club in Germany called "III. Weg", (III. Put - association to the III. Reich), which internationally cooperates with other right-wing extremist organizations. In the end, the students worked in groups, and shared their opinions about racism in their

city and their own experiences. The aim of the workshop was to inform students and talk to them about the problem of racism and discrimination in sports.

Earth Day

Earth Day is an important annual event on April 22 to demonstrate support for environmental protection. Planet Earth is also our only home and needs our help to thrive! Our duty is to participate in activities such as protecting nature, taking care of rivers and seas, collecting garbage and planting trees! Youth organization Svitac celebrated Earth Day with the youngest participants! We watched a video about our planet Earth and learned how to care for it. Our participants also painted the worksheets and made a beautiful poster with a large tree and children hugging it. The workshop was held in the premises of the Youth Center of Brčko District of BiH.

World Book Day

World Book Day is celebrated on April 23 around the world to promote the book and encourage the desire to read among children and adults. UNESCO and other NGOs on this day, in addition to the campaign for the protection of intellectual property, promote the importance of literacy, access to knowledge, linguistic diversity in publishing and minority languages. Orla, a volunteer from the Svitac Youth Organization, led the English Club's workshop on World Book Day. To start the workshop, she made a quiz with a wide range of questions ranging from banned books to the history of World Book Day itself, which proved to be a very interesting activity. After the quiz, we continued to talk about our favorite books and personal reading experiences in the group. At advanced English workshops, we also talked about books and described our favorite book in a fun way while the other participants tried to guess which book it was. The activity revealed the creative side of the participants, and enabled us to learn something new!

Some of the quiz questions:

'Alice's Adventures in Wonderland' has been banned in the region of which country since 1931?

When was the printing press invented?

In which country is the oldest library in the world that works continuously?

For May, the continuation of all activities of the Youth Organization Svitac is planned.

UMiD training participants are ready for new leadership endeavors!

The Institute for Youth Development KULT held a ceremony of awarding certificates and certificates to the participants of the **Learn, Think and Act 18 training (UMiD 18)** and participants of the **Learn, Think and Act training for teaching and professional staff of secondary schools (UMiDt)**. In addition to awarding certificates, the event particularly emphasized the importance of non-formal education for Bosnian society.

Young people who undergo non-formal education training are more prepared for the labor market, more active in the community and often encourage others to act and jointly seek solutions.

By training for teaching and professional staff, the Institute wants to encourage a classroom in which they will reflect, not only on the topics offered by school subjects and obligations, but also develop the skills and knowledge of every professional in secondary schools to recognize active young people and those ready for development in their intentions for further learning and support the society in which they live.

Around 50 certificates and certificates were awarded at this event, and all the activities that young people and high school staff carried out in 2023 and that they will continue to carry out until the end of this school year were celebrated. During the event, attendees had the opportunity to hear interesting different stories, exchange experiences, socialize and motivate.

The Institute for Youth Development KULT would like to thank all participants, with the message to continue to walk towards the realization of their dreams and goals!

Coffee with... Ivana Soldo: Everything you do with love will pay off

Ivana Soldo, a participant in the final season of **MasterChef Croatia**, left a strong impression with her culinary skills during the competition, but also at Kafa s..., organized by the Institute for Youth Development KULT.

She finished the competition as one of the five best candidates and thus showed enviable culinary skills. Ivana comes from Citluk, and is a master of history and pedagogy by profession. She applied to MasterChef with the desire to show off her culinary skills, which have been her passion from a young age.

During the competition, Ivana repeatedly impressed the jury, especially with some of her creative dishes. Also, Ivana showed her passion for desserts and said that she can imagine herself as a pastry chef in the future.

The concept of this event was made even more interesting by the fact that Jasmin Bešić, general director of the Institute for Youth Development KULT, spoke with Ivana. Common interests, love for preparing food, motivation that drives them in everything and the desire to achieve new successes, made this conversation very inspiring and useful for all present.

Visitors had numerous questions for Ivana, both about her culinary abilities as well as about formal and informal education, the influence of both on her, About MasterChef, patience and ambition. Ivana Soldo is an inspiring example above all to her peers, how passion and dedication can lead to great results.

The entire event can be viewed on the Facebook page of the Institute for Youth Development KULT.

Empowering civil society organizations is key to community progress

The two-day conference "**Present and Future: Local Progress with Strong Civil Society Organizations**", organized by the Institute for Youth Development KULT with the support of the US government, provided a perfect opportunity to present the achieved successes through the activities of local organizations with which the Institute cooperated to strengthen their capacities.

Strong civil society organizations are essential for the progress of the entire community, so it is necessary to provide them with daily support and work to empower them. This event provided space for discussion and analysis of the current challenges these organizations face on a daily basis.

During the event, participants had the opportunity to engage in discussions and exchange experiences on important topics for civil society development in Bosnia and Herzegovina with participants from different sectors. The aim was to provide a comprehensive overview of the current state of civil society in BiH, as well as opportunities for progress and steps towards creating more productive communities in our country.

The main motivation for organizing this event is local development and progress, with the aim of raising awareness of the importance of mutual support and understanding the link between the empowerment of organizations and the development of local communities.

The event also included discussions with partner organizations from neighboring countries, presenting examples of successful methodologies implemented by local organizations, as examples of good practice.

Such events facilitate networking of representatives of NGOs, getting acquainted with different actors, exchanging opinions and experiences and forming partnerships. This is crucial for the potential cooperation, support and empowerment of civil society organizations, and therefore for the empowerment of the entire community.

Support for the conference "**Present and Future: Local Progress with Strong Civil Society Organizations**" was provided by **USAID's LocalWorks Local Capacity Development Activity** program.
