

EVERYONE ACADEMY

SKY IS THE LIMIT

The power of collaboration

ANNUAL REPORT 2020

Letter from the founder

Today's world is changing rapidly and new challenges are facing English teachers and learners across the country and globally. We believe that teachers are more powerful when they come together. We need to have more fluent speakers and learners of English because it is a universal language and we need it to stay connected especially in these challenging times.

We have to view teachers as tremendous resources for each other and they need to work more together especially online using all the technology available. This approach is very effective and fruitful .

We can achieve this objective by organizing online sessions and webinars where we invite ELT experts and English teachers to share and talk about different classroom practices. We can focus on topics like Integrating technology in the classroom, teaching language skills especially reading, writing. We also create and design online courses

Aziz Soubai

The problem

Morocco has ranked 71st out of 112 countries in the 2020 English Proficiency Index (EPI) published by international organization Education First (EF)

of young Moroccan use online educational platforms to access English

Our solution

Mission

Everyone Academy was established in 2020 to reach English teachers across the country and abroad through the power of collaboration and connection. We encourage online collaboration among individuals (teachers, educators and researchers), develop a sense of community, and provide equal chances for everyone to have access to education.

Our values

Teamwork, Collaboration, Innovation, Connection, Creativity
